

Joyful Change

... how to?

A blurred landscape photograph featuring a sunset or sunrise sky with soft, pastel colors of blue, pink, and orange. The foreground is filled with dark, out-of-focus trees and foliage. The overall image has a dreamy, ethereal quality due to the motion blur.

How real is reality ?

You perceive what you believe

You ignore
what doesn't fit your beliefs

Don't believe everything
you think

Do you think
this picture has been
created on a computer?

It's a shot
out of a series
of normal landscape pictures

I too could hardly believe it

Think unthinkable Thoughts

What keeps you stuck is

beliefs - delusion - programming

Joyful Change
takes place
differently than expected

non-linear and
sometimes like a miracle

Miracles are
surprising - unexpected - wonderful

The only limit is your beliefs

Allow Miracles to happen

Let go and let God
